

The Giesler Gazette

What We Are Learning

MATH We are learning various strategies that we can use to add numbers up to 100.

READING This week we are learning about ways we can summarize a fiction story. Next week, we will begin to learn about author's purpose.

WRITING We are working on ways that we can stretch and expand our sentences to make them more interesting!

SOCIAL STUDIES We are still learning about the Creek and Cherokee Indians from Georgia's past! We will soon begin to learn about the first settlers of Georgia.

Upcoming Events!

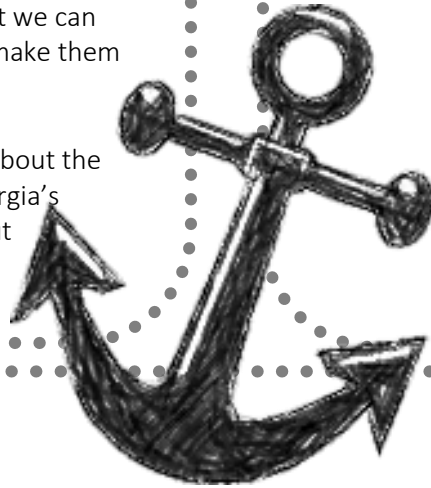

10/21-10/25 Conference Week/Early Release

10/28 Science Fair Projects Due

11/5 Science Night 6:00pm

11/6 In-School Field Trip
(Creek Indians)

11/16 Book Fair Week

Reminders

WISH LIST: I would love for each student to have a pair of ear buds that they can use when they get on the computer in the classroom or when we check out the iPads from the Learning Commons. If you could send in a pair for them to use, that would be wonderful! They will bring them back home at the end of the year, and they will be the only ones using them. Thank you in advance!

Conferences are next week! Remember, this is an early release week and students will be dismissed 2 hours early. I am looking forward to seeing everyone! Each conference will be about 15 minutes, and we will discuss report cards, academic progress, and overall behavior. See you then!
