

# The Giesler Gazette

## What We Are Learning

MATH We are continuing our study on addition and subtraction within 1000. We are now focusing on subtracting with regrouping, which is always a difficult concept to master. This is always something great to practice at home!

READING We have been reading several versions of stories and comparing and contrasting how they are the same and different. We have read several versions of Cinderella and are now reading various versions of The Gingerbread Man.

WRITING We are currently working on an opinion writing. Students are writing what their favorite holiday is, and giving reasons why it is the best holiday of the year.

SOCIAL STUDIES We will begin to discuss stars, including size, brightness, and patterns!

## Upcoming Events!

2/26 PTA Galaxy Dance

3/4 Read Across America Day

3/15 End of the 3<sup>rd</sup> 9 Weeks

3/17 Music Performance

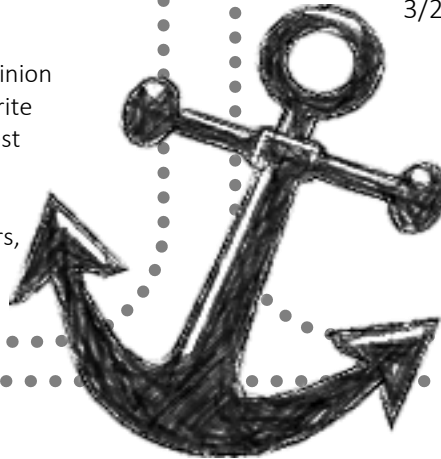

3/22 Report Cards

3/23 Fire Safety Village Field Trip

3/25 Spring Pictures

4/1 Cultural Arts Day

4/4-4/8 Spring Break

## Important Reminders

**Genius Hour:** Your child may have mentioned Genius Hour to you. Genius Hour is an hour each week where students are allowed to explore their own interests. We are kicking off Genius Hour with a research project where students may choose any topic to learn more about. Students have chosen their projects and will begin researching them on the computer this week. Stay tuned for more information about these projects!

**3<sup>rd</sup> 9 Weeks:** We have just two more weeks in the 3<sup>rd</sup> 9 weeks! We will spend the next couple of weeks wrapping up the standards for the 9 weeks, and doing assessing for the report cards. This 9 weeks has been flying by! 😊
